GROUNDFISH BYCATCH IN THE 2012 SALMON TROLL FISHERY

Sitka. . . The Alaska Department of Fish and Game (department) announced today the following information regarding groundfish bycatch allowances in the salmon troll fishery in state waters (internal waters and 0-3 nm) of the Eastern Gulf of Alaska Area. Commercial salmon trollers operating hand or power troll gear during an open commercial salmon fishing period may legally retain and possess incidentally taken groundfish in unlimited amounts, with the exception of the species detailed in the table below. The bycatch allowance for each species or species group reflects the percentage that may be retained and sold and is based on the round weight of salmon on board. Bycatch allowances for these species are as follows:

Species	Bycatch Allowance
Lingcod	30% IBS, EYKT, CSEO, SSEOC, NSEI, and SSEIW* 5% NSEO
Demersal Shelf Rockfish (DSR)	10%
Spiny dogfish	35%
Sablefish	0%

*Lingcod Management Areas- Icy Bay Subdistrict (IBS), East Yakutat Section (EYKT), Northern Southeast Outside Section (NSEO), Central Southeast Outside Section (CSEO), Southern Southeast Outer Coast Sector (SSEOC), Northern Southeast Inside Subdistrict (NSEI), Southern Southeast Internal Waters Sector (SSEIW) (Figure 1).

Lingcod, DSR, and black, blue, and dark rockfish are state managed species and the bycatch allowances in federal waters [exclusive economic zone (EEZ)] are the same for these species as the allowances set for state waters, as indicated above. The bycatch allowance in the EEZ for other rockfish species is 5% in aggregate. For information on bycatch limits for groundfish in federal waters, contact NOAA Fisheries enforcement at (907) 747-6940 (Sitka), (907) 586-7225 (Juneau), (907) 772-2285 (Petersburg), or (907) 247-5804 (Ketchikan).

Vessels trolling for salmon in the EEZ in the Gulf of Alaska that retain groundfish bycatch must have a Federal Fisheries Permit (FFP) endorsed for troll gear. If the vessel catches and retains any groundfish in the EEZ, the vessel is fishing for groundfish and must possess an FFP: <http://www.fakr.noaa.gov/index/infobulletins/bulletin.asp?BulletinID=3571>. For information on FFPs contact NOAA Fisheries at (907) 586-7202 or 800-304-4846. An FFP is not required for vessels retaining groundfish bycatch in state waters or for lingcod or black, blue, or dark rockfish taken in the EEZ.

The DSR assemblage includes yelloweye, canary, quillback, copper, tiger, China, and rosethorn rockfish. All DSR in excess of allowable bycatch limits shall be reported on a department fish ticket as bycatch overage. All proceeds from the sale of excess DSR taken in state waters shall be surrendered to the state. DSR overage taken in federal waters may be retained for personal use or donated but cannot be sold or enter commerce. All lingcod bycatch overage shall be surrendered to the state.

Lingcod

The retention of lingcod bycatch in the commercial salmon troll fishery is **open between May 16 and November 30 or until area-specific troll allocations are harvested**. All lingcod retained must measure at least 27 inches from tip of snout to the tip of the tail, or 20.5 inches from the front of the dorsal fin to the tip of the tail.

Closed Waters

Salmon trollers may not retain lingcod in the waters of Sitka Sound, described in 5AAC 28.150 (a), that are enclosed on the north by lines from Kruzof Island at 57°20.50' N. lat., 135°45.17' W. long. to Chichagof Island at 57°22.05' N. lat., 135°43' W. long., and from Chichagof Island at 57°22.58' N. lat., 135°41.30' W. long. to Baranof Island at 57°22.28' N. lat., 135°40.95' W. long., and on the south and west by a line running from the southernmost tip of Sitka Point at 56°59.38' N. lat., 135°49.57' W. long. to Hanus Point at 56°51.92' N. lat., 135°30.50' W. long. to the green day marker in Dorothy Narrows at 56°49.28' N. lat., 135°22.75' W. long. to Baranof Island at 56°49.28' N. lat., 135°22.60' W. long.

Groundfish may not be taken in the waters off Cape Edgecumbe (Edgecumbe Pinnacles Marine Reserve) enclosed by a box defined as 56°55.50' N. lat., 56°57.00' N. lat., 135°54.00' W. long., and 135°57.00' W. long.

2012 Lingcod Allocations for the Salmon Troll Fishery

Lingcod Management Area	Allocation (round pounds)
Icy Bay Subdistrict (IBS)	66,660, commercial lingcod quota shared by directed, longline, and salmon troll bycatch fisheries
East Yakutat (EYKT)	16,000
Northern Southeast Outside (NSEO)	3,200
Central Southeast Outside (CSEO)	16,800
Southern Southeast Outer Coast (SSEOC)	3,340
Northern Southeast Inside (NSEI)	6,400
Southern Southeast Internal Waters (SSEIW)	2,080

Lingcod bycatch in the troll fishery will be closely monitored and fishermen are advised that closures may occur on short notice. Area closures will be announced on the United States Coast Guard "Notice to Mariners" report and the National Weather Service broadcast, as well as by department news release. Updates of area closures will also be announced on the Groundfish Hotline at (907) 747-4882.
